Internship

Hi **Pankaj Gupta**,

Warm greetings, and thank you for applying for our internship opportunities. We're thrilled to have you in the selection process and look forward to evaluating your application.

To proceed, please complete the initial evaluation round by creating a Jabord profile at www.jabord.com and filling it to at least 20% completion. This step is crucial for expediting the process, as all shortlisted candidates will need an active Jabord account to begin work with us after selection.

Software Developer Internship

Hi **Pankaj Gupta**,

Warm greetings, and thank you for applying for our internship opportunities. We're thrilled to have you in the selection process and look forward to evaluating your application.

To proceed, please complete the initial evaluation round by creating a Jabord profile at www.jabord.com and filling it to at least 20% completion. This step is crucial for expediting the process, as all shortlisted candidates will need an active Jabord account to begin work with us after selection.

Why Do You Need a Jabord Profile?
Having your Jabord profile helps avoid delays after selection. Once shortlisted, all candidates are required to have an account for smooth onboarding. Completing at least 20% of your profile now will ensure we can quickly move through the interview and hiring stages. The remainder of your profile can be completed after an offer is made.
